1 MARCH 2010

Cornwall Stodart's New Website and Re-branding Initiative

We are pleased to announce the launch of our re-branding initiative and new website, operational from 1 March 2010. These measures have been designed to encapsulate our focus on Enhancing Success, which has been developed to steer the growth of Our Firm, Our Clients, Our People and Our Community.

Enhancing Success describes both our relationships with our clients and our role in their endeavours. It also describes the purpose of our firm, which is:

"To understand the needs and dynamics of Our Clients, Our People and Our Community, and to use our knowledge to enhance their success and wellbeing."

This purpose drives and underpins the goals and strategic development of the firm, as well as shaping our values and culture. It also carries real benefits for our clients and our people. For more information, please see 'About Us'.

The website has been designed to be easier to use, more comprehensive and to encapsulate the purpose of our firm. It includes updates, articles and news to keep our clients abreast of legal and commercial

developments. It also sets out the efforts our firm and our people have been making to enhance the success of our clients and our community.

We would like to thank all staff and clients who have been involved in the new website and re-branding initiative, particularly those clients who provided us with testimonials about our strengths as a law firm. We also welcome any comments or feedback on our new website, including any suggestions on how we can further improve our services.
